CODB Increase for HIV Contracts (\$500k)

Provide a small cost-of-doing-business and cost-of-living adjustment to HIV organizations to ensure they're able to maintain crucial services that our communities rely on.

Maintain the HIV Prevention Safety Net (\$2-3 million)

Ensure that existing HIV prevention services are fully funded while increasing resources to address disparities.

HIV Housing Subsidies (\$3 million)

Provide 300 additional housing
subsidies for people living with HIV.

Mental Health for Long Term Survivors (\$1 million)

Fund additional mental health
services and coordination for
people aging with HIV.

Intensive HIV Case Management Services (\$1 million)

Fund intensive case management services for vulnerable members of our community facing acute behavioral health needs who too often lack access to social, mental and health services.
