

MEGATRENDS IN HCV, STI, & HIV

Community Health Equity & Promotion

Thomas Knoble, MSW

July 28, 2025

Agenda

Past, Past and Still Current, New

Local, State and Federal

- Background
- Mega Trends from 2024
- Mega Trends that are still relevant from 2024
- New 2025 Mega Trends
- Things that are no longer trends
- Q and A

24-0047 ETE Overview Category / Pillars

1. Test.

2. Treat.

3: Prevent.

4. Respond.

5. Core HIV surveillance.

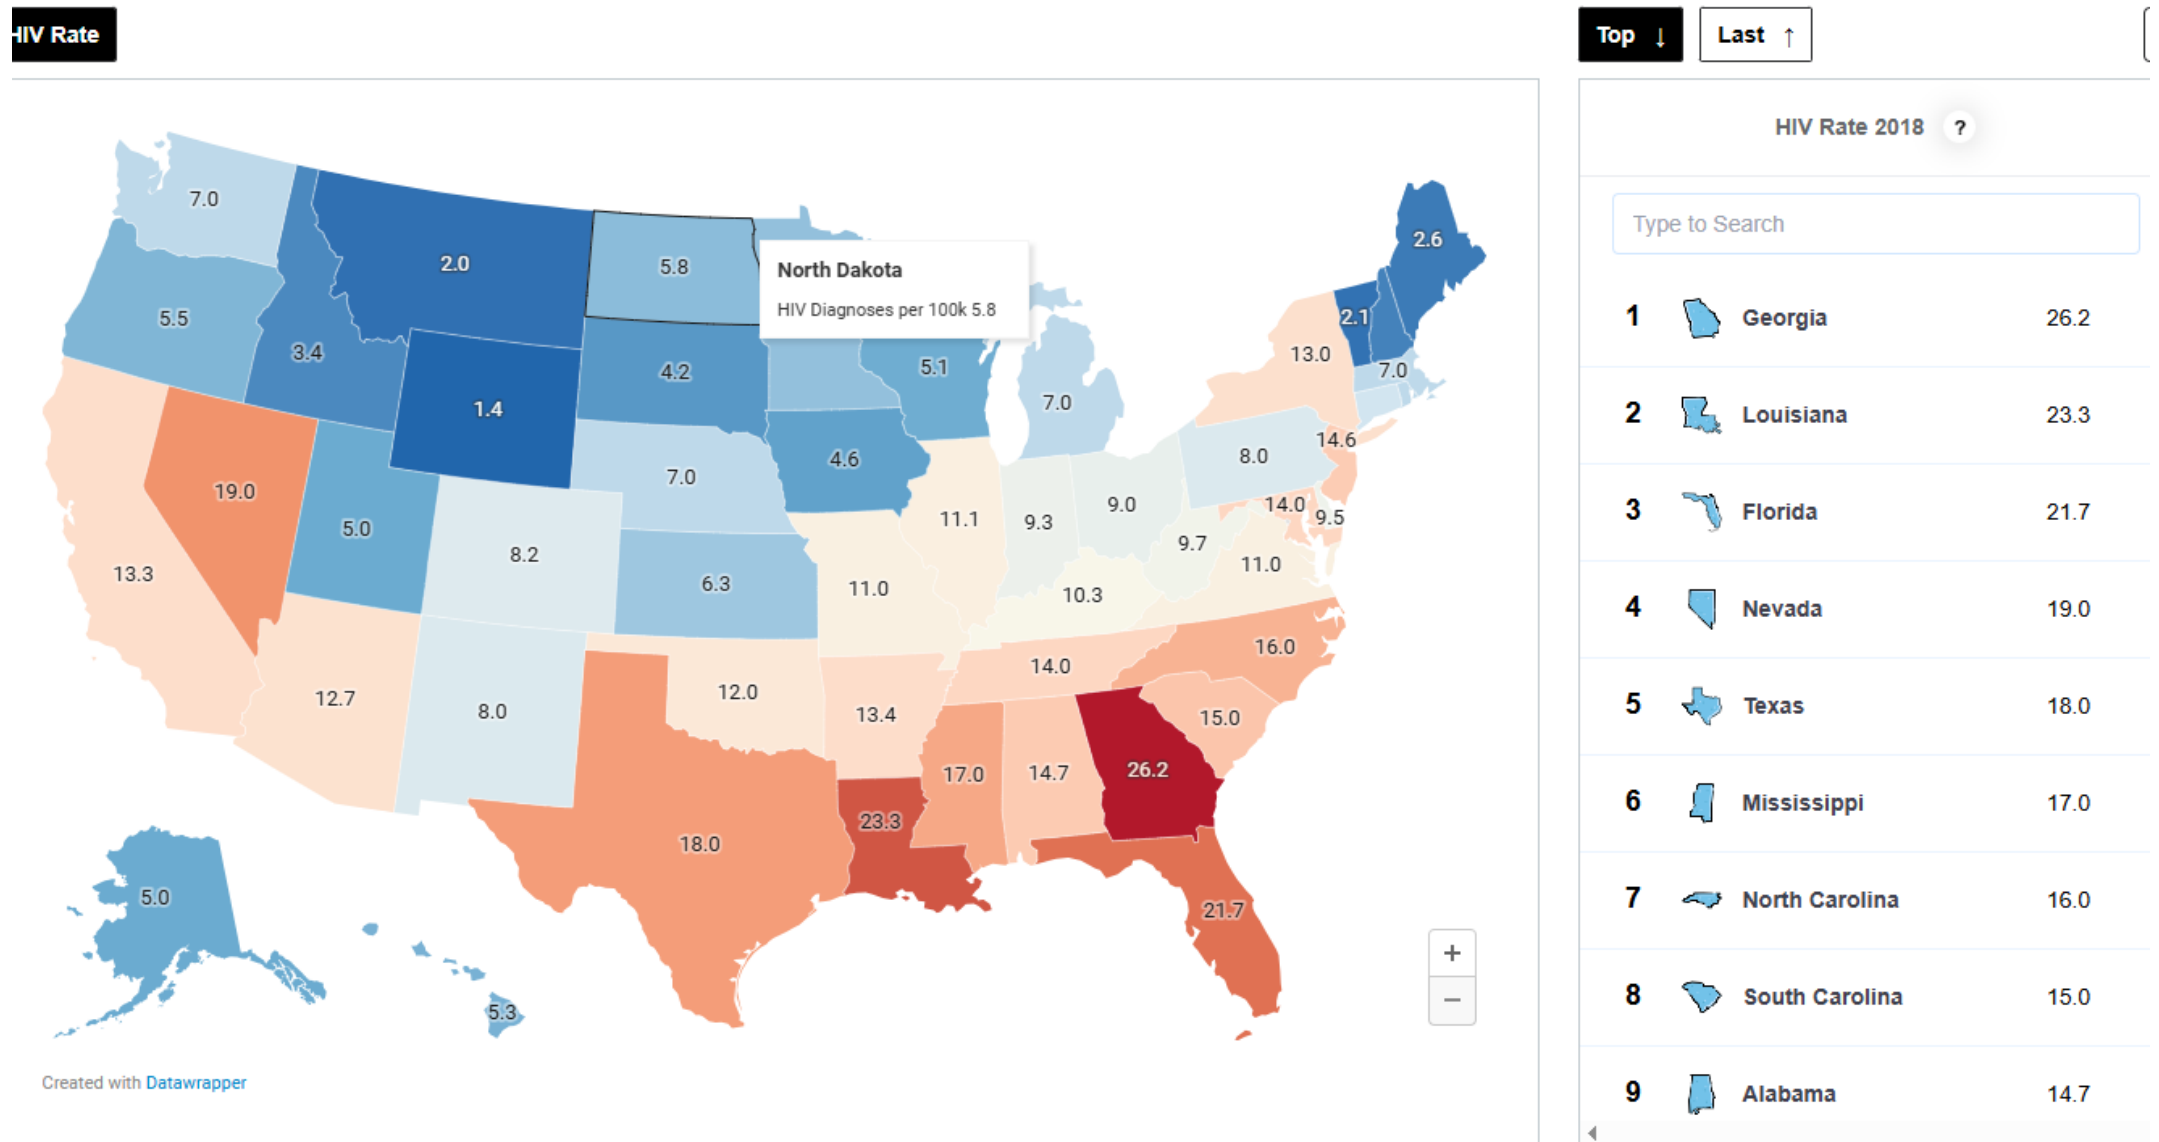

6. Community engagement.

- 2024 (5 years cycle)
- A merge of 18-1802 and 20-2010
 - Share background
- National syndemic, HIV, STI, Hep-C

- <https://www.datapandas.org/ranking/hiv-rates-by-state>

Nationally HIV

Past Trends

Last Years Trends, 2024

- HIV rates dropping in many urban settings
- Working closer with surveillance
- Partner Services is harder (sex apps)
- Molecular HIV Surveillance requirements
- STI Rates going up
- Increased access to HCV treatment
- Increased overdose mortality

Past Trends and Still Continuing

Continuing Mega Trends 2025

- Long Acting Injectables, Care and PrEP
- Leaning into Syndemic, HIV, Hep-C, STI, Overdose
- Work Force, Retirement, Training, Lived Experience
- Doxy PEP
- Social Determinants of Health
- Telemedicine, Take Me Home
- Equity
- Cluster Detection and Response
- Ending the Epidemics
- Overdose Deaths, 2024 635, down from 810 from 2023

New Trends

New Mega Trends 2025

- Unstable funding landscape
- Deconstructing of Diversity, Equity and Inclusion
- National attacks on Trans community
- National change in immigration enforcement
- Deconstructing reproductive health
- Research contracts ended

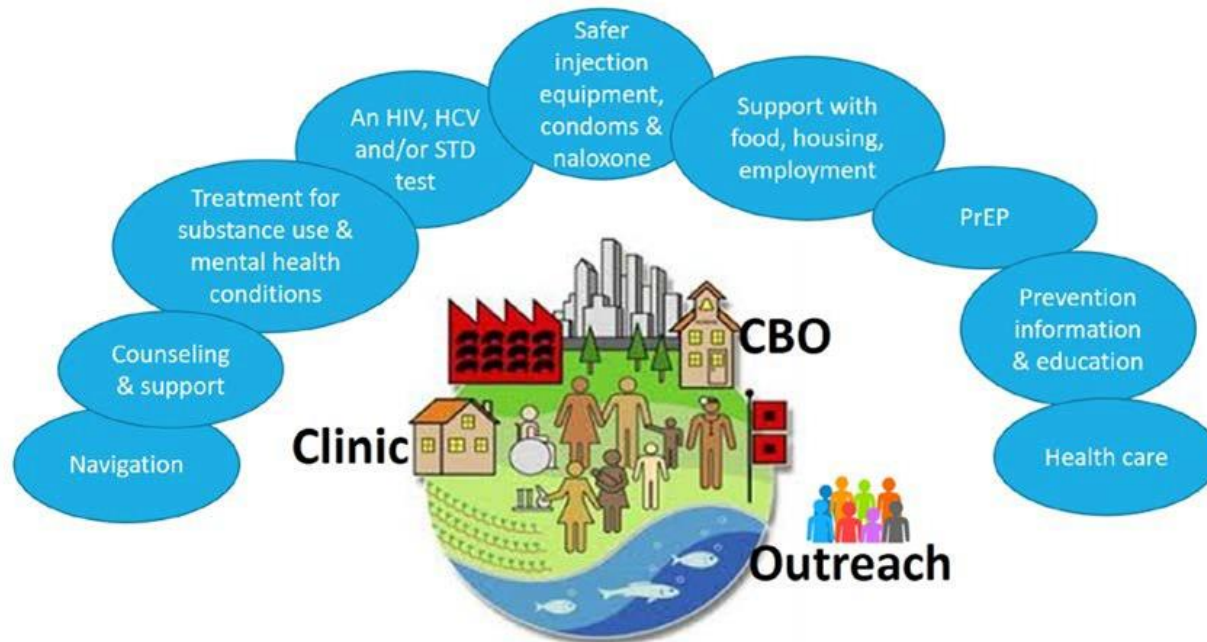

Current Funding Overview 2025/2026

NAME	FUNDING TYPE	DATE	AMOUNT REQUESTED	AMOUNT AWARDED
CDC grant (PS-24-0047)	Federal	6/1/2025 - 5/31/2026	\$7,114,756	\$7,055,155
CDC HCV grant	Federal	7/1/2025 - 6/30/2026	\$315,000	\$115,000
CDPH HCV grant	State	5/1/2025 - 6/30/2026		\$200,371
Health Access Points (HAPS)	SF General Fund	7/1/2025 - 6/30/2026		\$15,791,800

Syndemic (De-siloing)

“Health Access Points”

Goal: Reduce disparities by addressing vulnerabilities through focused community investment.

- **Nationally:** CDC is asking for local health departments to work with a syndemic approach
- **San Francisco:** The Health Access Points (HAPs) are providing HIV, Hep-C, STI and overdose prevention services
- **Note:** We have been working on integration, ahead of most

Health Access Point (HAP) Services, (Building Blocks)

Integrated HIV,
HCV, and
STI Testing

Basic Needs

Primary Care

Mental Health
Services

Prevention and Treatment Medication:
PrEP, Doxy-PEP and ART for HIV;
HCV Treatment; STI Treatment,
Including Medical Storage

Substance
Use Treatment

Work Force, Retirement, Training, Lived Experience

- The workforce that started in early years (early 1990s) is retiring
- Many staff moved to COVID-19 and Mpox efforts
- Increased workforce development efforts with people experiencing/have experienced homelessness, youth, promotores, people who use drugs, people with history of incarceration, and trans community
- Increased value on lived experience
- Increase in overdose prevention efforts

Doxy PEP, Long-Acting HIV Injectables (Bio-Medical)

- **Nationally:** Many health departments in early stages or have not started, but most want to
- **San Francisco:** Has had early successes with Doxy PEP and Long Acting Injectables.
- **Note:** San Francisco is working on further expansion with a focus on disparities

Social Determinants of Health

Social determinants of health (SDoH) are the conditions in the environments where people are born, live, learn, work, play, worship, and age that affect a wide range of health, functioning, and quality-of-life outcomes and risks.

- **Nationally:** The term is used a lot. Not consistently used
- **San Francisco:** Many efforts are built into interventions, “wrap around services.” Built into HAPs, (See next slides)

Telemedicine , Have Good Sex, Take Me Home

- **Nationally:** Increased telemedicine and home testing options. Helpful in addressing stigma and rural needs
- **San Francisco:** Home testing, Have Good Sex Social marketing Campaign connected to Take Me Home Testing Services

Equity

- **Nationally:** Used a lot. Some are leaning into it hard, and others are still trying
- **San Francisco:** HAPs build on addressing equity
- **Note:** HAPs, Black/AA, Latino/a/e/x, Trans women, Youth, Men who Have Sex with Men, People who use Drugs, API

Cluster Detection and Response

- **Nationally:** Many health departments in early stages or have not started, but most want to.
- **San Francisco:** Has had early successes with Doxy PEP and Long Acting Injectables.
- **Note:** San Francisco is working on further expansion with a force on disparities.

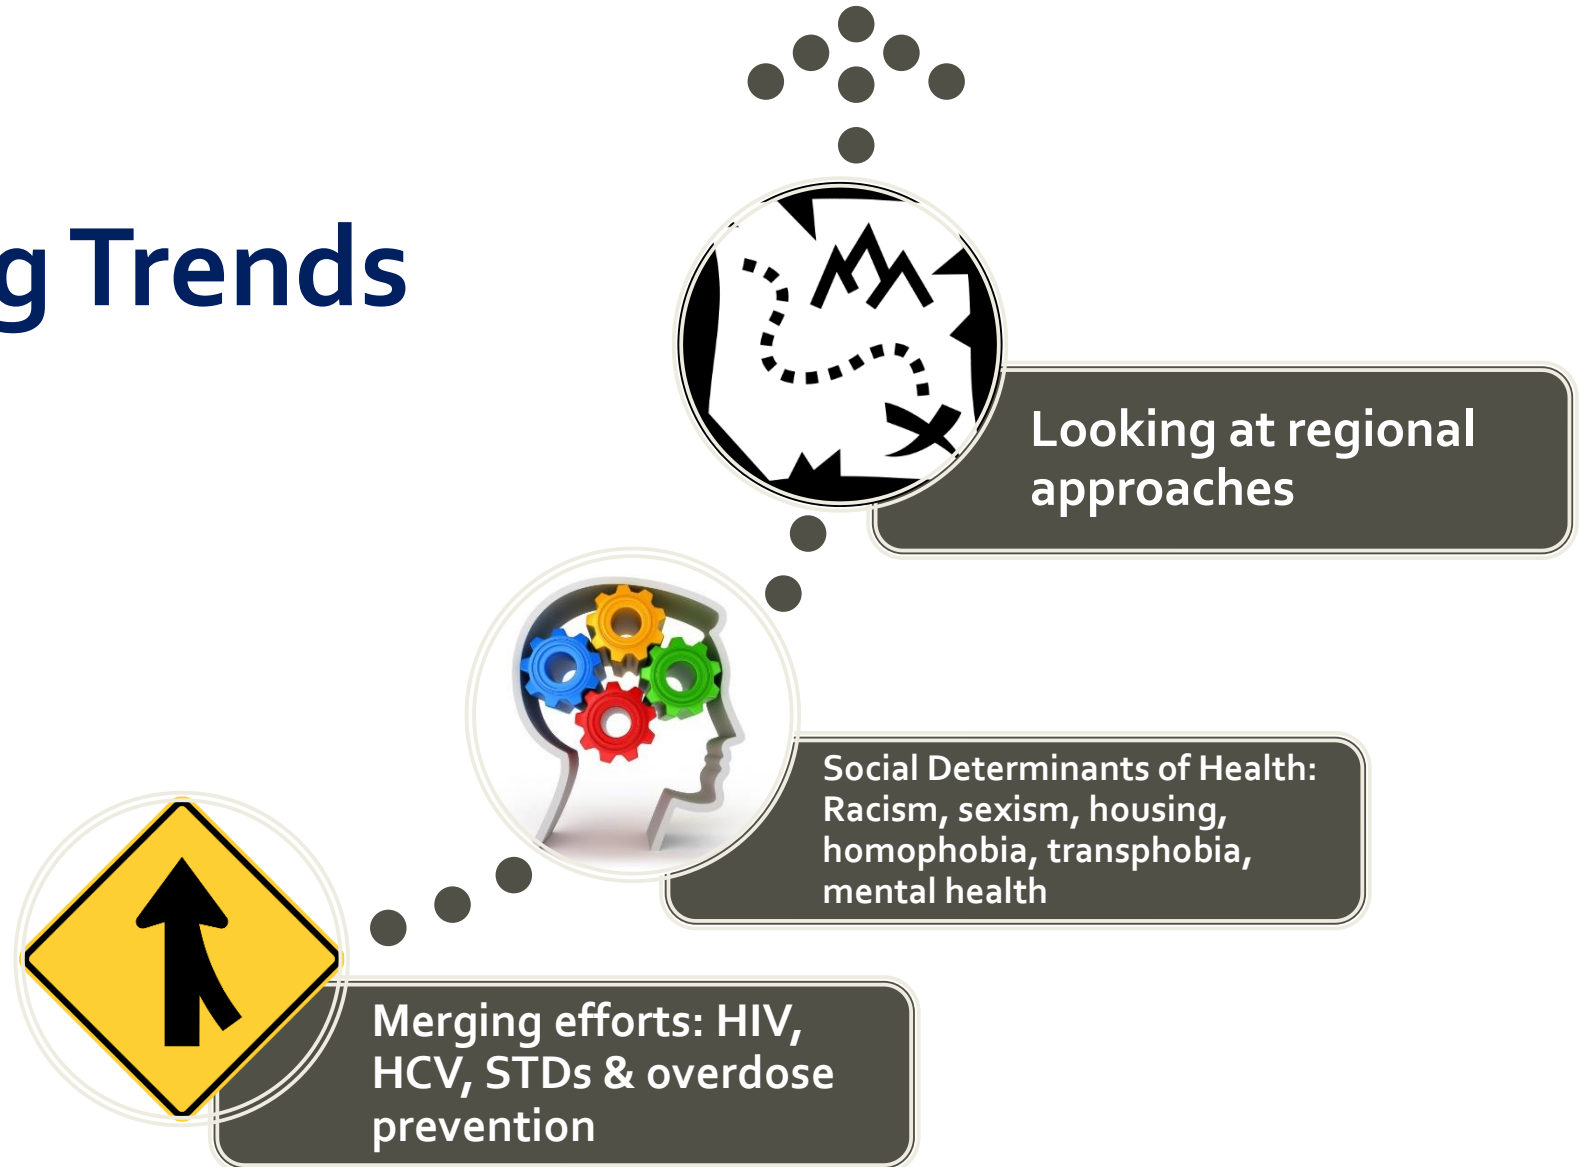

Ending the Epidemics (ETE) What does it means?

- **Nationally:** Looking at next cycle.
For CDC merged
- **San Francisco: (Prevention)** We
have merged ETE and other
- **Note:** Waiting to hear back on
current application, funding

Ending
The
HIV
Epidemic

SF is Setting Trends

La Cumbre

September 03, 2025

- Workforce Summit for Spanish Speaking Staff
- Bay Area, 5 counties
- 9:00 to 5:00 pm
- Main Library

Thank you!
